

Let's talk...

April 7th is "World Health Day"

To Station Manager and Producers:

What is the future of world health? Don't miss out this interview with Petrene Soames, author of *The Essence of Self-Healing* who has "progressed" into the future and brings fascinating insights about the future of world health. Your listeners will be captivated. Light up the airways with a spectacular show.

- Just how much medication will we be taking in the year 2050?
- How has present research paid off 35 years from now?
- When and how will science, medicine and healers work more closely together?
- What year will cancer, Parkinson's disease, heart attacks and strokes finally be eradicated?
- What will be discovered about links between the head, brain, stem, spinal chord and nervous system in the healing process?
- How will vibrational healing fit in?
- How can individuals start today using self-healing and create a positive, disease-free society and future?
